Introduction

Throughout Australia hardware groups, home centres, hardware independents and variety stores have relied on Raven for its leading range of door and window seals. Today, Raven also provide an extensive range of window cleaning products, floor edging and access ramps in addition to the popular door and window seal range to the retail, DIY and trade markets.

The Original & The Best

Established in 1950, Raven Products Pty Ltd remains an Australian family owned and operated company and now a member of Family Business Australia. Raven invents, designs and manufactures products that are exported all over the world. Over the years, Raven has perfected and streamlined its manufacturing and distribution systems to ensure optimum reliability in supply whilst guaranteeing Raven's legendary quality. That's why we stamp our products with 'The Original & The Best' gold seal.

**A family
owned

DIY DOOR & WINDOW SEALS

Raven pioneered DIY and architectural door and window seals in Australia offering the most comprehensive range to suit all consumer types and price points.

Raven offer a range of door bottom seals and weather stripping designed to meet any need or configuration. The handy selection guide over the page makes selecting the right product for the right application easier than ever ensuring you achieve the best result.

The iconic Raven brand is easily recognised with our tough tamper resistant packaging on DIY products giving improved product identification and greater display impact. Popular ranges are also available in trade packs.

- Easy self serve product!
- Huge display impact
- The original & the best!
- A seal for every problem

How big is the problem?

The heating and cooling loss from an unsealed home through gaps around doors and windows can be up to 50%.

- Draughty and expensive!

What does it cost?

While the problem is big the cost of the solution is small. In fact, the energy saving benefit of fitting Raven door and window seals is a fraction of the cost as compared with double glazing or roof and wall insulation.

Raven Seal Selection Guide

It's easier than ever to select the right seals using the product selection chart below. Simply identify the type of door or window you have and the problem you are trying to solve and you will be able to quickly see which seals are suitable for you.

It's easier than ever to select the right seals using the product selection chart below. Simply identify the type of door or window you have and the problem you are trying to solve and you will be able to quickly see which seals are suitable for you.

DIY WINDOW CLEANING

Founder of Raven Products Pty Ltd, Peter Raven, invented and patented the world's first combination window cleaner / squeegee in the early 1950's. The Raven range of window cleaners and squeegees have remained a popular line in hardware stores across Australia ever since.

Constructed with ultralight aluminium, premium quality sponge and brush and incorporating a unique double life reversible rubber blade, the Raven range of window cleaners and squeegees are designed for reliable everyday window cleaning use.

Ideal for efficient window cleaning around the home, Raven window cleaners and squeegees are also suitable for cleaning motor car windscreens, boats, shower screens and more.

- For reliable everyday use
- Ideal for the home, boat, car or caravan
- High quality materials
- Reversible double life rubber blade

ADVANCED WINDOW CLEANING

Glidex® is a range of advanced window cleaning products combining six years of research and leading edge manufacturing technologies.

Originally developed for the intense professional market, Glidex® window cleaning products are now available to everyone through leading hardware outlets across Australia. The range includes professional window squeegees of various sizes and window washers as well as replacement parts and accessories like utility end tips and reach poles.

This high quality professional product is ideal for those in coastal areas or for anyone wanting an easy cleaning experience with professional results.

- A professional range for the home or business
- Ideal for coastal or holiday areas
- Replacement blades and accessories available
- Premium quality

- Reversible double life squeegee blade

- Aircraft grade anodised aluminium
- Fluted grip design for added comfort
- Fittings moulded in engineering grade Nylon 66

- Double action lever lock feature for safe channel offset or release

- Ultra stiff alloy channel
- Professional grade materials
- Stainless steel retaining clips
- Non-scratch end plugs
- Superior release angle for tight corners
- Extra fitment groove to alter squeegee angle

- Ergonomic swivel handle
- Fittings moulded in engineering grade Nylon 66

- Safe-Connect™ latch feature for use with Glidex® attachments

- Unique Safe-Connect™ feature for use with Glidex® poles
- Premium quality double twist yarn for maximum absorbency and durability
- Double seam sewn ends for longer life
- Convenient hook and loop style fastening tabs

THRESHOLD ACCESS RAMPS

The simplest most affordable threshold access ramp for homes, at work, shops, professional practices and more!

Surprisingly affordable and much cheaper than messy cement or custom made metal plates. The Raven threshold ramp simply lays in place or permanently fix with builders adhesive. Raven threshold ramps meet access and mobility gradient 1:8 at door ways (in path of access and egress).

- Reduce tripping hazards at doorways
- Made from slip resistant recycled rubber
- Quick and easy installation
- Meets access and mobility gradient 1:8 (in path of access and egress)

For safety & convenience:

- At home
- In aged care facilities
- In hotels & motels

Ideal for:

- Delivery drivers & tradies
- Wheelchair users

NEW

GARDEN EDGING

Inspire[®] Garden Edging's unique patented tooth design makes installation so quick and simple that anyone can do it.

With Inspire[®] Garden Edging you can achieve a professional finish without the hard work. Designed and manufactured in Australia, Inspire garden edging does not need expensive pegs.

Australia's harsh weather conditions can be a challenge for any outdoor product. To meet this challenge head-on, Inspire[®] Garden Edging is made from durable, high grade colour-coated galvanised steel. Above all, this quality dual-layer protective coating ensures the longest life to keep your garden looking its best.

Available in Modern & Heritage designs.
